

2010 ASCE PACIFIC SOUTHWEST REGIONAL CONFERENCE: IMPROMPTU COMPETITION

OBJECTIVE

The purpose of this competition is to test teams on their ability to think out of the box and on the spot on an engineering related challenge

GENERAL RULES

- The Impromptu competition is a fun tradition of the PSWRC designed to test general engineering skills. The event is unknown prior to competition; even to the host school. Rules will be given at the start of the event.
- Teams of four are required.
