

2010 ASCE PACIFIC SOUTHWEST REGIONAL CONFERENCE: SCAVENGER HUNT COMPETITION

OBJECTIVE

The purpose of this competition is to test teams on their hunting capabilities in an unknown landscape.

GENERAL RULES

Each team must be composed of 6 students. 2 students from each team must be female and 2 more students must be 1st or 2nd year engineering students. 1st/2nd year female engineering students will count towards the underclassmen and female counts on each team.

The scavenger hunt items list will be released to schools upon checking in with the event staff on April 7, 2010.

EQUIPMENT

Teams will not need any kind of special equipment to compete in this event. Patience and the ability to distinguish objects from far away would be helpful though!
